

You can find 3 more visual patterns with tasks similar to the Border Problem and Banquet Problem here:

<https://www.youcubed.org/tasks/number-transformer-challenge/>

This one is for quadratics:

<https://www.youcubed.org/tasks/squares-to-stairs/>

There a whole bunch of just the patterns here (some are linear and some are quadratic):

<http://www.visualpatterns.org/>

For some more application type problems for equations (more suitable for high school):

<http://www.101qs.com/3199>
